

PETER D. MOOR BIOGRAPHY & FIRM PROFILE

Moor & Associates, Architects, P.A. was founded in 1992 by Principal Architect Peter D. Moor and partner Mary J. Juckiewicz. Peter received his Bachelor of Architecture Degree from N.Y. Institute of Technology.

After working for several years in New York he moved to Vermont to start his first practice. There he was greatly influenced by the vernacular architecture and planning and delighted in the aesthetic consensus of tradition. One of his first projects received National Historic Landmark Designation.

In 1989 he relocated to Vero Beach, Florida and has since focused mainly on residential design, including new construction and renovations. Peter has found Florida an excellent place to further his interest in site planning, urbanism, craft, construction and the continuation of the traditional building arts.

Moor & Associates has built their reputation over the years creating architecture that incorporates the clients' needs with firmness, commodity and delight. The firm has won several state and local awards from the American Institute of Architects, been published in "A Decade of Art and Architecture" by the Institute of Classical Architecture & Classical America and been featured in numerous magazines.

Peter D. Moor is licensed in Florida, Vermont, New York and South Carolina, is a member of The American Institute of Architects and registered with NCARB. He currently sits on the Board of Advisors to the Institute of Classical Architecture & Classical America Florida Chapter, the Executive Board of the Indian River Land Trust and is a board member and past president of the Laura Riding Jackson Foundation.
